Introduction

1. This is a policy for managing the moorings that Wallingford Town Council and South Oxfordshire District Council own on the River Thames at Wallingford. The councils have worked in partnership to develop this policy to ensure better management of the moorings in Wallingford.
2. South Oxfordshire District Council has authorised Wallingford Town Council to take on the day-to-day management of the South Oxfordshire District Council owned moorings as of 1 April 2016.

Background

3. The councils have for many years been encouraging the use of each of their moorings to boaters on the Thames. However, until now, no formal policy has existed that sets out the terms and conditions for their use.

Objectives of the mooring policy

4. The objective of this moorings policy is to encourage more visiting boaters to moor at Wallingford and peacefully enjoy the moorings, the town and surrounding area.

5. This will be achieved by a policy that allows boaters to pay to moor their boat in Wallingford for a reasonable amount of time but discourages overstaying or any misuse of the moorings.
